“Together, we can end AIDS.” organised AIDS day with Quiz competition in RJSCOP on 09 December 2023.

Guest Dr. Thombare mam with Mr. Katkade sir, Mr, Kotme sir, and Jain mam felicitation of guest.

Students attended lecture of Dr. Thombhare mam and students of Quiz competition

The need for AIDS awareness day is essential as HIV infection is currently incurable, but one can control it with good quality education about the disease, especially in rural areas. It was once an unmanageable chronic health condition, but now, with advances in HIV prevention, diagnosis, manage, and care including for opportunistic infections, people with HIV can live long, and healthy lives. In India, in the year 2019, 58.96 thousand AIDS-related deaths and 69.22 thousand new HIV infections were reported. This year 2023, the World AIDS Day Theme is “LET COMMUNITIES LEAD!”. The theme emphasizes the influence of communities on the HIV response and global health. Rashtrasant Janardhan Swami College of Pharmacy had organized World’s AIDS Day program which was done at 03.00 pm with the auspicious hands of Mr. Prasad Katkade, with the presence of Guest Dr. Thombare mam along with presence of all teaching and non-teaching staff and students. Before starting this program quiz competition done at 2.00 pm with presence of staff. Later on Guest of program guided students for their HIV & AIDS (Causative agent, Mode of transmission, treatment, prevention). And later this program Mrs. Usha Jain mam motivated students about their AIDS Day. Program was co-ordinate by Mrs. Utkarsha Lasure and Mrs. Kaweri Chaudhari Mrs. Deshmukh Soniya cultural co-ordinator of RJS College of Pharmacy. Then lastly program was completed with vote of thanks by students.

News updates

1. NPPA fixed retail prices of 20 formulations:- 15th November 2023

The National Pharmaceutical Pricing Authority (NPPA) has fixed retail prices of 20 formulations under Drugs (Prices Control) Order, 2013 based on the decision of 93rd Authority meeting dated 15.11.2021. The drug candidate Dapagliflozin and metformin extended release is included in 17 formulations out of 20 for which price fixation is applied. Dapagliflozin was patented by AstraZeneca and there are sixteen USA patents protecting this drug and one Paragraph IV challenge.

Pharma Industries like Anthem Biopharma, Blue Cross Laboratories, Cadila Pharmaceuticals, Morepen Laboratories, Panacea Biotec, Synokem Pharmaceuticals, Troikaa Pharmaceuticals, Unison Pharmaceuticals are affected from this price fixation. These Pharma companies are dealing with formulations of Dapagliflozin and Metformin Hydrochloride which are included in DPCO 2013.

2. CDSCO recommends not to use anti-cold syrup in children:- 01st December 2023

CDSCO recommends widely used anti-cold syrup not to be used in children below 4 years of age, after recommendation from SEC. The FDC of Chlorpheniramine Maleate and Phenylephrine HCl was declared as rational by Prof. Kokate committee and based on the recommendation of the committee, this office has

issued NOC for continued manufacturing and marketing of subject FDC on 17.07.2015 under the 18 months policy decision. Subsequently concerns have been raised regarding promotion of unapproved anti-cold drug formulation for infants. The matter was deliberated in Subject Expert Committee (SEC-Pulmonary) meeting held on 06.06.2023 wherein, In light of the issue regarding use of the FDC of Chlorpheniramine Maleate IP 2mg plus Phenylephrine HCL IP 5mg drop/ml was discussed before the committee.

3. PCI launched DIGI-PHARMed application for pharmacists:- 5th December 2023

The Pharmacy Council of India (PCI) will launch a revamped – DIGI-PHARMed application on December 1 with four integrated services having an objective to regulate the Pharmacy education in the country by enrollment/ registration of Pharmacy institutions/ Pharmacist/ Pharmacy student/ Pharmacist jobseeker across India. President of PCI, Dr. Montu Kumar M Patel will inaugurate the revamped “DIGI-PHARMed” Portal as the earlier iteration of the application was limited in scope, where Pharmacy institutions/Faculties/Pharmacy students could avail full benefits of PCI digital services. The revamped DIGI-PHARMed Portal is cloud-based application to provide end-to-end services to Pharmacy institutions/Pharmacist/Pharmacy student/Pharmacist jobseeker, the PCI release stated.

4. Govt to include Oseltamivir and Zanamivir in Schedule H1:- 5th December 2023

Government to include Oseltamivir and Zanamivir in Schedule H1 after the consultation with the Drugs Technical Advisory Board. Oseltamivir, sold under the brand name Tamiflu, is an antiviral medication used to treat and prevent influenza A and influenza B, viruses that cause the flu. And the brand name of Zanamivir is Relenza and it prevents and treats infections caused by influenza A or B virus. Oseltamivir is a prodrug that is metabolized to its active form, oseltamivir carboxylate, after oral administration, while zanamivir is designed for delivery by inhalation.

5. Lupin Receives approval from USFDA for Varenicline Tablets:- 6th December 2023

Lupin is an innovation-led transnational pharmaceutical company headquartered in Mumbai, India. The Company develops and commercializes a wide range of branded and generic formulations, biotechnology products, and APIs in over 100 markets in the U.S., India, South Africa, and across the Asia Pacific (APAC), Latin America (LATAM), Europe, and Middle East regions. Global pharma major Lupin Limited announced that it has received approval from the United States Food and Drug Administration (U.S. FDA) for its Abbreviated New Drug Application for Varenicline Tablets, 0.5 mg and 1 mg, to market a generic equivalent of Chantix® Tablets, 0.5 mg and 1 mg, of PF Prism C.V. The product will be manufactured at Lupin's Pithampur facility in India.

6. Zydus receives final approval from the USFDA for Lacosamide Tablets:- 12th December 2023

Zydus Lifesciences Limited (including its subsidiaries/affiliates, hereafter referred to as “Zydus”) has received final approval from the United States Food and Drug Administration (USFDA) to manufacture and market Lacosamide Tablets USP, 50 mg, 100 mg, 150 mg, and 200 mg (USRLD: Vimpat® Tablets).

Lacosamide is indicated to treat partial-onset seizures. It is also used with other medicines to treat primary generalized tonic-clonic seizures. The product will be manufactured at the group’s formulation manufacturing facility in Moraiya, Ahmedabad (India)

7. FDA approves first Gene Therapies to Treat Patients with Sickle Cell Disease:- 12th December 2023

The U.S. Food and Drug Administration approved two milestone treatments, Casgevy and Lyfgenia, representing the first cell-based gene therapies for the treatment of sickle cell disease (SCD) in patients 12 years and older. Additionally, one of these therapies, Casgevy, is the first FDA-approved treatment to utilize a type of novel genome editing technology, signaling an innovative advancement in the field of gene therapy. Sickle cell disease is a group of inherited blood disorders affecting approximately 100,000 people in the U.S. It is most common in African Americans and, while less prevalent, also affects Hispanic Americans. The primary problem in sickle cell disease is a mutation in hemoglobin, a protein found in red blood cells that delivers oxygen to the body’s tissues. This mutation causes red blood cells to develop a crescent or “sickle” shape. These

sickled red blood cells restrict the flow in blood vessels and limit oxygen delivery to the body's tissues, leading to severe pain and organ damage called vaso-occlusive events (VOEs) or vaso-occlusive crises (VOCs). The recurrence of these events or crises can lead to life-threatening disabilities and/or early death.
